

DEVKINANDA TIWARI

AI Automation & AI Agent Developer

PROFESSIONAL SUMMARY

BCA student at Lucknow University with hands-on expertise in AI agents and workflow automation using n8n. Proven problem-solving skills with 300+ DSA problems solved and 5-star HackerRank achievements. Building intelligent automation solutions integrating AI with Notion, Arduino, and APIs.

TECHNICAL SKILLS

AI & Automation : n8n, AI Agents, Workflow Automation, Prompt Engineering, API Integration

Platforms & Tools : Notion, Arduino Uno, n8n Cloud, REST APIs, JSON

Languages : Python, JavaScript, C++, SQL

PROJECTS

1. Notion Daily Task Scheduler

n8n, Notion API, Automation

- Automated n8n workflow orchestrating Notion API for daily task scheduling and retrieval
- Implemented date filtering, task prioritization, and JSON data transformation
- Optimized API rate limiting and error handling for reliable daily execution

2. Arduino Temperature Monitoring

Arduino Uno, IoT, Embedded Systems

- Built IoT solution using Arduino Uno with DHT11 temperature/humidity sensors
- Developed real-time sensor data collection, calibration, and serial communication
- Implemented data logging with threshold-based alert system

3. AI Agent Workflow Prototyping

n8n AI Agents, Prompt Engineering

- Experimented with n8n AI agent nodes for autonomous task execution
- Explored prompt engineering techniques for dynamic LLM-driven automation

EXPERIENCE / INTERNSHIP

AI Automation Developer

Self-Directed | Jan 2024 - Present

- Designed and deployed production-grade AI workflows using n8n
- Integrated multiple APIs including Notion, Arduino, and REST services
- Debugged and optimized complex automation issues

EDUCATION

Bachelor of Computer Applications (BCA)

Lucknow University, Uttar Pradesh

Expected Graduation: 2029

CERTIFICATIONS

- TCS iON Career Edge - AI Foundation
- NCC Certificate A
- AWS Cloud Practitioner Essentials
